

# Your Week with... Delta HLA Plus

An advanced high-water level alarm system, specifically designed for real-time tracking and monitoring of pumping stations, providing a reliable tool in your hands.

## Pump Service Contractor

**MONDAY 08:00 AM**

**Log onto Delta Pumps App.** Prepare your work schedule for week – cross referencing projects/ locations along with servicing, commissioning, and scheduled repairs.

Revisit each site history to familiarise yourself with backgrounds and identify any potential risks.

Ensure you have suitable replacement/ compatible products for each day.

**WEDNESDAY 10:30 AM**

Notification received that that a High-Water Level has been recorded at Mrs Smith's London address.

Visit Delta Pumps App for full review on history of site - you can easily identify any suspicious activities.

Note the site is an 'Active Site' – contact customer (Mrs Smith) to arrange a site visit.

### WEDNESDAY 12:30 PM

Attend Mrs Smith's London address. Perform general engineering duties to ensure that pumping station(s) are operating as specified. Carry out maintenance/repairs of pumping station and associated equipment (if required).

Basement drainage system is check. All working as it should. Suggest with client increasing servicing intervals based on frequency of High-Level Alarms recorded. **System is re-set – flooded basement avoided.**

### WEDNESDAY 1:45 PM

Notification received that that a power outage has been recorded at Mrs Jones' London address.

Visit Delta Pumps App for full review on history of site - you can easily identify any suspicious activities.

Note this isn't an 'Active Site' and the property has a battery backup – No flooded basement. Wait 30 minutes to see if mains power is restored.

### WEDNESDAY 1:55 PM

Notification received that that mains power has been restored Mrs Jones' London address.

Visit Delta Pumps App for full review on history of site.

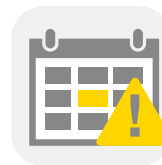

### THURSDAY 4:45 PM

Notification received that pumps are running more frequently at Mr May's Essex address.

Visit Delta Pumps App for full review on history of site - you can easily identify any suspicious activities.

Contact Mr May for a site visit as you have concerns on the basement drainage system.

### FRIDAY 8:30 AM

Attend Mr May's property in Essex. A burst water main has been identified which has resulted in Mr May's basement drainage system working more frequently than expected.

Re-set activation perimeters and make a note to revisit the Delta Pumps App later for another review before the weekend.

### SATURDAY 9:30 AM

You have received notification that a High-Water Level has been recorded at Address X in Surrey.

Visit Delta Pumps App for full review on history of site - you can easily identify any suspicious activities.

Depending on the service contract at Address X, you may book a site visit to inspect the basement drainage system. **No flooded basement!**
